Subject: Deer Park Field proposed planning change

We wish to register our objection to the change in designation of Deer Park Field beside our house as it was always intended to be for Recreational Use only! This late submission is unfair as it does not give time or opportunity for others to voice their views or objections and should therefore not be accepted.

This will impact seriously on our road if it is used as access! We live in
at the end bordering the field. We were informed only a few days ago by
and were shocked that it was even being considered for housing! The traffic in and
out of the estate is already chaotic and we dread to think what an added housing
development would mean as anyone trying to get out onto Victoria Road in the morning
could testify. We were informed who sold the land to the Golf Course insisted it
remain for Recreational Use so why can it now be changed? The trees there would be a
huge loss.

Yours sincerely
Malcolm and Cynthia McKay
