Dear Sir/Madam,

I would like to make a submission regarding the landscape at the Boomhall site, I endorse the current strategy of retaining the existing LDP plan of conservation for the area. The land has an aesthetically pleasing natural setting and I would like to see the area used as such in future. I believe that there is enough development already and we should be renovating existing structures/buildings as they are already part of the setting. Boomhall and its land provide a welcome historical & green resource for the people of the city and should be protected for future generations to enjoy.

Best regards,
[REDACTED]
